Chair Audition Repertoire

The audition will consist of the chromatic scale and the 2021 audition etude for your instrument.

Chromatic Scale

Please prepare a memorized chromatic scale that displays the extent of your range and technical speed. While the chromatic scale will be memorized, many written resources can be found online for preparations.

2021 Etude

The audition etude is a theme and variations. Play to the end of the variation (double bar line) with which you are the most comfortable and displays your best performance abilities. Once again this is not an audition for entrance, just chair placement.

I look forward to meeting you soon. Please email me if you have any questions or concerns.
